Seeking positions: Applied Scientist of ML/NLP/CV/VLN, Software Development Engineer, Web Developer

EXPERIENCE

SalsaBot
The Ohio State University
AUG 2022 ~ | Columbus, OH

- Amazon Alexa Prize SimBot challenge. Team member of SalsaBot of the Ohio State University
- Engineering lead of the team

Data Science Intern (Remote)
AI CAMP
MAY 2022 ~ AUG 2022 | Palo Alto, CA

- Develop a generative model (AItextgen) with celebrity's tweets data to imitate their tweeting style. Deploy the product to web application.
- Teaching students building their own NLP product

Undergraduate Teaching Assistant (Part Time)
The Ohio State University
2019, 2020 | Columbus, OH

- Helped students to develop a knowledge of the algorithm of basic AI techniques and their implementation
- Guided students to understand basic algorithms and structure of computer science

PROJECTS

Honda Virtual Assistant Sponsored by Honda | 2020

- Created a self-service kiosk for internal use
- Led the team, formulated the structure and software development process
- Developed based on Microsoft Azure service and Bot framework Cooperated with Microsoft web services and LUIS

Lyric Timestamp Auto Generator NLP | 2022

- Improved music experience by synchronizing lyrics
- Team lead, structured the project framework
- Model built with NLP and ML algorithm, Applied Fourier transform for audio isolation

Tele-Tube Chrome Extension | 2022 (WIP)

- Team lead, initialize the project idea and structure
- Developed a Chrome extension to store and share timestamp notes, summarizing and synchronizing video caption data

EDUCATION

The Ohio State University
2021 – 2023
M.S. in Computer Science and Engineering | **GPA: 3.7**

The Ohio State University
2018 - 2020
B.S. in Computer Science and Engineering | **GPA: 3.87**
Honor: Magma Cum Laude, Dean's List

SKILLS

Industry Knowledge
PyTorch, NumPy, Pandas
NLP, Data Mining
AWS
Pthread, OpenMP, CUDA

Programming Language
Python, R, Java
C#, C, C++
JavaScript, HTML/CSS
SQL

Relevant Courses
Software Development
Interactive System Design
Data Structure
System Architecture
Natural Language Processing
Machine Learning
Neural Network
Data Mining

Tools
Microsoft Azure Bot Framework
Google Diagflow
Visual Studio
Azure DevOps
