Seeking positions: Software Development Engineer, Machine Learning Engineer, Applied Scientist of ML/NLP/CV/VLN, Web Developer

EXPERIENCE

Engineering Lead | SalsaBot, The Ohio State University
AUG 2022 ~ | Columbus, OH

- Amazon Alexa Prize SimBot challenge. Engineering lead of the team
- Develop unit testing, iterative testing, and end-to-end testing. Practice software development principles.

Data Science Intern | AI CAMP
MAY 2022 ~ AUG 2022 | Palo Alto, CA

- Develop a generative model (AItextgen) with celebrity's tweets data to imitate their tweeting style. Deploy the product to web application.
- Teaching students building their own NLP product

Graduate Teaching Associate | The Ohio State University
2022 ~ | Columbus, OH

- Assisting in the course: Advanced Artificial Intelligence

Undergraduate Teaching Assistant |The Ohio State University
2019, 2020 | Columbus, OH

- Helped students to develop a knowledge of the algorithm of basic AI techniques and their implementation
- Guided students to understand basic algorithms and structure of computer science

PROJECTS

Honda Virtual Assistant Sponsored by Honda | 2020

- Created a self-service kiosk for internal use
- Led the team, formulated the structure and software development process
- Developed based on Microsoft Azure service and Bot framework Cooperated with Microsoft web services and LUIS

Lyric Timestamp Auto Generator NLP | 2022

- Team lead, structured the project framework
- Model built with NLP and ML algorithm, Applied Fourier transform for audio isolation

Tele-Tube Chrome Extension | 2022 (WIP)

- Team lead, initialize the project idea and structure
- Developed a Chrome extension to store and share timestamp notes, summarizing and synchronizing video caption data

EDUCATION

The Ohio State University
2021 – 2023
M.S. in Computer Science and Engineering
GPA: 3.7

The Ohio State University
2018 - 2020
B.S. in Computer Science and Engineering
GPA: 3.87
Honor: Magma Cum Laude, Dean's List

SKILLS

Industry Knowledge
PyTorch, NumPy, Pandas
NLP, Data Mining
AWS, Git
Pthread, OpenMP, CUDA

Programming Language
Python, R, Java
C#, C, C++
JavaScript, HTML/CSS
SQL

Relevant Courses
Software Development
Distributed Enterprise Computing
Interactive System Design
System Architecture
Data Mining

Tools
Microsoft Azure Bot Framework
Google Diagflow
Azure DevOps
